G. Important Issues About the Application Process

1. The total number of students to be selected for Mevlana Exchange Program, taking into consideration the total evaluation mark within the context of the existing agreement quotas, is estimated according to the decisions taken by the ADÜ Mevlana Exchange Program Selection Committee. The number of students who will benefit from the exchange are stated by the Council of Higher Education.
2. Until the application results are announced by the Council of Higher Education, all students will be considered as **'candidate students'**.
3. Students can carry out the mobility within the framework of the existing institutional agreements of Aydın Adnan Menderes University (ADÜ). Applicants should examine **2013-2025 Academic Year Bilateral Agreements** on International Office (UİK) – ADÜ Mevlana web site at this link: <http://www.idari.adu.edu.tr/mevlana/default.asp?id=31333232>
4. In the event of two students of the same study level from the same department having the same evaluation criteria and there is insufficient quota for both students, priority will be given to the student in the higher year. If both students are in the same year, priority will be given to the younger student.
5. Please visit the UİK – ADÜ Mevlana web site for detailed information about the program.
6. Students continue to pay the tuition fee they have to pay for Aydın Adnan Menderes University.
